Sing Link Your Hands Together - only holding hands with those from same household

### **Instructions for Penny Hike**

In family groups/households leave for a walk from the agreed starting point/s (maybe in different directions to maintain distancing). Toss a coin at each junction to decide whether to go left or right, you can ask young people each time to decide before you toss the coin where you will go at that junction (it doesn't always have to be the same 'rule').

Walk for 20 mins and then head back to the starting point - to take it further you could try to retrace your exact steps and see if your group can remember where they have been.

During the walk take photos to remind you what you saw - you will need these for the next session to make a map of your walk.
