

Penny Hike Part Two

Age Groups - Elfins (age 6-9) Pioneers (age 10-12)

Before the session ask everyone to bring their own drawing materials and remind them to bring the photos from their walk from the previous session.

Materials

Phone/camera with photos from walk (see Penny Hike Part One)
Ask everyone to bring pens/pencils/whatever they like drawing with
Large sheets of paper/ long piece of paper from a roll
Sticky tape
Groundsheets for everyone to work on in household groups
Water bottle/hand sanitiser/snacks to be brought from home

Session Plan Overview

On arrival family/household groups go to separate ground sheets. Hand out paper to each group.

Sitting on household groundsheet have newsround and allow young people to share news from their week.

Map making activity - see instructions below

Quick active game e.g. [40 ways to get there](#) - everyone has to move in a different way. Can make this harder by adding on the previous movements.

Sing Link Your Hands Together - only hold hands within your household group

Instructions

Groups will use their photos (and their memories) to make a map of the penny hike they went on in the previous session. It can just be a simple map showing their walking route and things that they passed. If pictures cannot be printed then young people could draw what they passed and all will use drawing materials to mark out their routes. If they can't remember where they turned right and left then a wiggly line is fine. If they picked things up on the walk these could also be stuck on to the map. If young people do not finish in the time they have it can be done at home.

Take it further - does each group want to present to others where they walked and what they saw? Could another household follow another map and do the same route?
